

KORAPUT COFFEE

Koraput Coffee is special in its own rights. These arabica beans originate at an altitude of 3000 ft above MSL. We work tirelessly with the Tribal Development Agencies from Orissa to ethically and legally source these beans from the tribes who are the original inhabitants of these areas. Primarily created by the British, the Koraput coffee belt is also home to a unique agro climate since it enjoys mild rains and a sub-tropical climate of the Eastern Ghats in a seemingly tropical surroundings of the Deccan Plateau. We offer organic certified Arabica beans under the Koraput coffee brand.

Seed Agritech was conceived as a collective movement of farmers and professionals from the food industry who set out to improve efficiencies in the supply chain. We push ourselves to continuously innovate on farming and post harvest methods that can add value to our customers. Seed Agritech coffee division aims to build on our experience in the spices supply chain and scale up business for our certified Organic and RFA farmer partners in our Coffee programme.

We are proud to present to you one each of Rubusta and Arabica coffee beans. Banquets coffee from the Western Ghats of Kerala (Wayanad) and Koraput coffee from the Eastern Ghats of Orissa.

BANASURA COFFEE

Banasura Coffee originates from the scenically beautiful and naturally endowed mid ranges of the Western Ghats. These robusta beans provides the perfect blend of taste, vigour and vitality in each cup of your coffee. We offer both certified Organic and RFA Coffee from the erstwhile kingdom of King Banasura and like the folklore of Banasura's strength of a thousand arms, we are confident that our coffee will give you a renewed vitality in every cup
