# 1 HIGH CURCUMINOID TURMERIC (ORGANIC)

High Curcuminoid Turmeric project is one of the iconic field project of SEED Agritech. Alleppy Finger Turmeric (AFT) is a variety of high curcuminoid Turmeric with unique colour and flavor which is grown only in the tropical region of Kerala state in India. This grade of Turmeric has got a curcumin value of 5% and above. At present SEED Agritech is the largest cultivator and processor of AFT with a volume of 1200 MT annually. SEED Agritech is promoting the cultivation of AFT through more than 150 farmer clusters and working with 2000 farmers including tribal farmers. We were recognized for this iconic projects from various quarters and is having a buying network for this particular product including exporters from India and buyers from US and Europe.

Turmeric field in Tamilnadu

## 2 ORGANIC MFT (Curcumin Content 2 - 3.5%)

SEED Agritech operates the projects of MFT (Madras Finger Turmeric) in two major regions and the ICS is managed from our Perunthurai office Tamilnadu. Perunthurai ICS consists of more than 2500 farmers spread across the region of Satyamangalam, Krishnagiri and also extended to South Karnataka region including Chamaraj Nagar and Gundlupet. The annual expected volume of certified organic MFT is approximately 450 MT.

# 4

## ORGANIC BLACK PEPPER

We are working with Black pepper farm projects in selected regions eliminating the chances of cross contamination of agrochemicals from other crops like Cardamom and Coffee. Hence, we have identified low risk zones for operating our organic Black pepper projects. Our major cultivation locations are Wayanad in Kerala, Kolli and Yercadu hills in Tamilnadu. We are dealing with high to medium bulk density Organic Black Pepper. The annual volume of Organic Black pepper is around 150 MT.

# 5

## ORGANIC CINNAMON

The variety of Cinnamon that grows in Kerala is *Cinnamomum Veram*, which has the lowest level of Coumarin content. The profile of Kerala Cinnamon is almost closely matching with the Srilankan variety. In Kerala the major Cinnamon fields are located in the foot hills of Western Ghats in Wayanad and towards the south zone of Trivandrum and Kollam which includes Kolathupuza, Bharatipuram, Kallar etc. The Cinnamon grows in a region with an altitude of about 1000 meters and with the rainfall of approximately 1250-2500mm. Our annual volume of organic Cinnamon including barks and quills is about 125 MT.

# 7

## ORGANIC CARDAMOM

Cardamom is a highly pest prone spice. Hence, SEED Agritech is focusing on a specific strategy of cultivating cardamom. We have identified some non-traditional, non-commercial Green Cardamom growing belts in the Malabar region of Kerala and hill stations in Tamil Nadu like Kolli Hills and Yercaudu. SEED Agritech manage to cater an yearly volume of approx. 15 to 20 MT of organic Cardamom. We are also expanding opportunities of Cardamom cultivation in tropical areas outside India as well, including Sri Lanka.

8

## ORGANIC NUTMEG

Our Nutmeg project is based at North and Central Kerala region. More than 500 small and medium farmers are associated with this project. We take special care to provide afla free material.

## 8 ORGANIC NUTMEG

Our Nutmeg project is based at North and Central Kerala region. More than 500 small and medium farmers are associated with this project. We take special care to provide afla free material.

## 9 SEED SPICES PROJECT

Our seed spices project is carried out in association with an NGO based at Udaipur, Rajasthan who is working mostly in wild products and seed spices like Cumin, Fennel, Coriander, Sesame, Dill seed, Psyllium, Mustard, Fenugreek etc. They are having farming activities with around 20,000 certified and under conversion farmers across Rajasthan, Gujarat and MP

**10**

## RED CHILLI PROJECT

As part of the backward linkage project at Perundurai, a chilli project is being executed in association with an NGO group. The S4 variety of red chilli is being cultivated in the rainfed area of Central and South Tamilnadu. The output from the project is approximately 250 MT of certified organic red chilli.
